

National Certification Programme for Cardiac Rehabilitation (NCP_CR) 2021

Data from the National Audit of Cardiac Rehabilitation (NACR) is used to quality assure services in the UK and in doing so creates an opportunity to support patient choice through sharing relevant data. The National Certification Programme for CR (NCP_CR) is a joint initiative between the British Association for Cardiovascular Prevention and Rehabilitation (BACPR) and BHF NACR that reports on the quality of CR in the UK.

- ¹ These programmes were Green/Certified last year, but due to Covid-19 service change did NOT meet all seven KPIs this year so remain Green (i.e. will not be downgraded to Amber) but will not be authorised to use the 21/22 certification logo, so are shown as Green/Not Certified.
- ² These programmes meet all 7 KPIs but have confirmed a large variation in numbers and because of this, do not have complete data in NACR. They are therefore shown as Green/Not Certified and are not authorised to use the 21/22 certification logo.
- ³ These programmes were Amber last year, but due to Covid-19 service change did NOT meet Amber this year. Therefore, they will be held at Amber (i.e. will not be downgraded to Red).
- ⁴ These programmes were Red last year, but due to Covid-19 service change did NOT meet Red this year. Therefore, they will be held at Red (i.e. will not be downgraded to Fail).
- ⁵ These programmes meet all 7 KPIs but have confirmed a large variation in numbers and because of this, do not have complete data in NACR. They previously had not met all criteria and are therefore, Amber with seven.
